

Epic EHR-Integrated Outcomes Program

Speed up the timeline for collecting patient-reported outcomes using PatientIQ's SMART on FHIR application, integrated and embedded directly into Epic Hyperspace.

SMART on FHIR Embedded App

Empower your care teams with data-driven insights at the point-of-care, including patient trends, benchmarking and alerts.

Epic Hyperspace Interface

Embed PatientIQ insights directly into your Epic EHR Hyperspace experience for an optimized workflow.

Patient-Reported Outcomes

Use our decision-engine to effortlessly capture disease & treatment specific PROs and identify early signs of complications.

Patient Education

Integrate our library of 1600+ diagnosis and procedure specific education videos to engage patients from diagnosis to recovery.

Online Reputation & Satisfaction

Seamlessly capture online reviews from your patients, improve SEO and increase new patient revenue.

Benchmarking & Analytics

Run population level reports and benchmark patient outcomes by provider, location, or other metrics.
