

ONLINE REPUTATION & SATISFACTION

Leverage our EHR-integrated workflows to seamlessly capture online reviews from your patients, improve SEO and increase new patient revenue.

The success of your brand depends on the voice of your patients

Capture satisfaction surveys

Empower doctors and healthcare establishments to request custom satisfaction surveys post appointment and analyze the results to optimize care.

Request online reviews

Aggregate and manage patient feedback from over 35 review sites specific to the Healthcare industry to best manage your reputation across the internet.

Transform your business reputation

Capture and respond to valuable feedback and improve your reputation, giving your brand a higher star-rating and a bigger presence on local search.

Respond to feedback in-app

Manage and reply to online reviews, and leverage Smart Response capabilities to quickly respond to reviews utilizing on-brand templated responses.

Visualize your reputation over time

Track your online reputation by group, location or source, build strategies to upgrade patient experiences, monitor your competition, and win more business.

Amplify your patients' voice

Build credibility, increase your online ranking, and drive more conversions by displaying reviews on the web pages that convert and help streamline the evaluation process.
